PROFESSIONAL SUMMARY

Data-Driven Analyst: Advanced proficiency in Power BI, Tableau, and Excel for data visualization, predictive modeling, and creating interactive dashboards that drive decision-making.

Process Optimization Leader: Lean Six Sigma Black Belt (ICBB) certified professional skilled in deploying DMAIC methodologies to eliminate waste, reduce process variation by 25%+, and deliver quantifiable workflow efficiencies.

Cross-Functional Collaborator: Adept at aligning technical data outputs with business objectives, partnering with finance, procurement, and operations teams to deliver measurable outcomes.

Data Storyteller: Consistently recognized for distilling technical findings into clear, stakeholder-friendly reports and training programs that enhance organizational data literacy.

PROFESSIONAL EXPERIENCE

❖ Logistics Analyst, Huntington Ingalls Industries

April 2025 – Current

Procurement Lifecycle Management: Translates client needs into Requests for Quote (RFQs) via Maximo; drives vendor selection through competitive bids.

Multi-Stakeholder Coordination: Liaise between Accounts Payable, Receiving, vendors, and clients to resolve discrepancies, track 50+ ETAs, and enforce Net 30 compliance.

Leadership Forecasting: Briefs executives weekly on financial commitments, delivery pipelines, and payments for \$2M+ project planning.

❖ Freelance Consultant, Upwork

July 2024 – April 2025

Data Analyst & Financial Consultant: Conducted detailed market analyses, built financial models, and provided reports that clients used to make smart business decisions.

Client Engagement Specialist: Communicated clearly with global clients, consistently delivering projects on time and earning excellent reviews.

❖ Inventory Management Specialist, Department of the Army

February 2021 – July 2024

Award-Winning Leadership & Project Management: Managed a nationwide uniform distribution project for 20,000 soldiers, meeting deadlines and minimizing waste.

Strategic Reporting & Data Analytics: Provided easy-to-understand reports to senior leaders, improving decision-making on contracts and inventory management.
